Dr. Michael E. DeBakey
Baylor University College of Medicine
Houston 25, Texas

Dear Dr. DeBakey:

I received a request from Dr. Edward Dempsey for copies of an article I recently published (copy enclosed for your convenient referral). He apparently saw a relationship in this article to the report of the President's Commission on Heart Disease, Cancer and Stroke, and sent me a copy of Volume I of the report.

I very recently reached a decision that this medical school is still many years away from adequate development. There are many problems of town-gown strife, lack of funds, lack of a physical plant, etc., and I have concluded that I had best seek elsewhere.

Dr. Dempsey's letter turned my attention to the possibility that some of my academic background and views on medical education might coincide with your interests and that you might know of an opportunity. I am therefore taking the liberty of enclosing my curriculum vitae and bibliography and hope that you will not find this inquiry burdensome.

Thank you very much.

Sincerely yours,

Daniel S. Martin, M.D.
Associate Professor of Surgery
